Trustee Paape asked about contractors pulling building permits. Administrator Jenkins referred to the section that requires a license number and the cautionary statement that are included in the building permit application. Trustee Paape asked if the Summer Parks and Recreation Program was on track. Trustee Gerhke responded that they had conversations with the school to see if they would be interested in doing staffing. Administrator Jenkins said the school does not have the appetite to provide staff. The

Village would have to hire a director. Registration fees would cover the cost of hiring someone. Trustee Gerhke stated that if the Village can't find the right candidate, they have to be prepared to cancel the program this summer.

### **Updated Inspection Fees & Inspector Payout**

As I reported at the last Board meeting, other meetings have been occurring between myself, Clerk Johnson, and our Building Inspection team to review the current permit processes and adjust inspection fees to match our neighboring communities.

What is in your packet are the results of these recommendations. The Inspectors and myself recommend approval.

With changing the fees, the pay given to our inspectors should be updated as well. As projects vary so much between large and small, it was concluded that the easiest and fairest way to calculate inspector's fees is based on a percentage. This is what is done in neighboring communities such as Belgium and Cedarburg.

The proposed Inspector Fee percentage is a 50/50 cut – 50% going to the Inspector as their pay, and 50% being retained by the Village.

**Administration's Recommendation:** Approve

**Fiscal Impact:** Increase Permit Revenues with updated prices. Village would retain at least half of permit income with 50/50 split instead of risking a loss under a flat fee.

Thank you,  
Christophe E. Jenkins  
Village Administrator
