## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER Monitoring Requirements Not Met for FREDONIA WATERWORKS

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. Between 1/1/2023 and 9/30/2023, we did not monitor for **synthetic organic or inorganic** contaminants, and therefore cannot be sure of the quality of your drinking water during that time.

inorganic contaminants, and then during that time.	efore cannot be sure of	f the quality of your drinking water	
What precautions should be tak There are no special precautions remember that the quality of your	s you need to take at		ant to
What was the cause of the miss  Two samples were not tested within the h		ements?	
What is being done to correct the Resampling the missed monitoring requirements		ng earlier to catch anything missed by the outside la	ab.
When will the problem be resolved? We are working with the lab for earlier set ups.	The problem should be resolved by	r February 2nd, 2024.	
If you have questions regarding the s	safety of our drinking wa	ter, please contact:
